

phpMyFAQ 2.5

What are the requirements for phpMyFAQ 2.5?

You will need

- PHP 5.2.0 or later
- MySQL 4.0 or better or any other supported database
- any Webserver

For the client side you should use a current webbrowser with enabled JavaScript because of the usage of [TinyMCE](#) as WYSIWYG editor and [jQuery](#) for Ajax-powered features in the backend.
